

Get Away Mole Repellent Model 5500

Directions for Use

Use Restrictions

This product may be used to repel eastern moles (*Scalopus aquaticus*) from lawns, ornamental turf, golf courses, and athletic fields.

Locating Moles

The presence of moles may be indicated by a network of surface ridges in the turf or by a series of conical mounds of earth pushed up from deep burrows. Treat all areas which show signs of moles present.

Application Directions

Shake well before using product. Attach garden hose tightly to self-dispensing container. Turn water supply on to full pressure. Spray **Get Away** over mole infested area at a rate of one quart of product per 5,000 square feet (e.g. 50 ft. by 100 ft. square). Adjust the spray nozzle to "**WATER.**" Continue to spray with water to soak **Get Away** into the soil. Apply **Get Away** immediately after the presence of moles is detected or in early spring, mid-summer, early fall if there are moles nearby but not on your property.

Precautionary Statements

Caution: Keep out of reach of children. Avoid contact with eyes, skin or clothes.

Environmental Hazards

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters. Use this container only with **Get Away**. Do not contaminate container with weed killers or pesticides. Contains 100% Caster Oil USP.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.

Storage: Store only in a cool, dry place inaccessible to children and pets.

Container Disposal: Do not reuse empty container. Rinse thoroughly. Securely wrap in newspaper and discard in trash.

Notice: Buyer assumes all responsibility for safety and use not in accordance with directions.
